GREAT FIGHT FOR BUKOWINA
Russians Cross the Rye River, and the German Attempts to Drive Them Back.

London, Jan. 2.—The battle in the Galician Crown lands of Bukovina, which has been foreboded for some days by the concentration of heavy Russian and Teuton forces, has begun in earnest, and according to an official statement issued in Petrograd to-night, the Russians thus far have the upper hand. Czernowitz, the Crown land capital, already is being shelled by the enemy's guns. The Russian forces they stormed the heights before the city and took 900 prisoners, including 15 officers. The city's garrison is said to be held ready for evacuation.

Czernowitz was taken by the Russians in the first Galician drive, and was retaken by the Austrians only a year later. Since then it has been firmly held by the Teutons. The Austrians, however, are not satisfied with the situation at Czernowitz, and are determined to retake it. WATER! said Clay, looking at the man with his magnifying glass. "You say you found it?"

"The train was sliding into Quebec with the load of French gold," said Clay. "The morning air was a shiver of diamonds. The passengers had packed, washed, breakfasted, and were about to sleep. It was the most American of all the American trains. And yet, here it was, with its load of French gold, and its load of French gold."

Other Two Trustees Contested Go Back for Two Years With Good Majorities.

The Labor party not only successfully entered the aldermanic contest, but also won out in one instance in the fight for the Board of Education. While candidates were put in Wards 2, 4, 7 and 8, it was only in the first that success was attained. Displeasing Dr. R. T. Parry, William Barrett, an unsuccessful aspirant for the Board of Control a year ago, was elected by a majority of 23 votes. In Three, where Alfred Ward was contested by James H. Cunningham, the former won out by nearly 200. In Four George Allan was returned, after defeating John Quigley by over 300, while in Seven Chas. Webb, the Labor man, was defeated by Geo. F. Hutchinson, for the position of the late Geo. C. Holden.

The contests in the different wards brought the following votes:

The electorate, or rather that portion of it which took the trouble to leave the firehouse on New Year's day and visit the polling booth, sprang a surprise on most of the Hamiltonians who have been following the race among the five men for controlship. To many the defeat of ex-Controller Chas. G. Bird and the re-election of the old Bird and the re-election of the Board of Control for 1916, came first a year ago, receiving several hundred votes over the next man, Controller Cooper. Third and fourth places were contested twelve months ago by Controllers Jutten and Robson.

HOW THEY STAND.

Controller Robson is the first man this time, though, and as such will become vice-chairman of the board. Even his most ardent supporters did not figure on such a victory for the former alderman, but were exceedingly pleased when it became evident at the city hall, attributing the success to the vigor of his pre-election campaign. He received 5,242 votes, or about 150 more than the second man, Controller Jutten, who was boosted from third place a year ago to second, greatly to the surprise of many who had figured that a lot of the controller's supporters had left for the firing line. Controller Morris, from leading man a year ago, is third with about 500 less votes than the second member, while Controller Cooper, whose friends believe the result to be through lack of any campaign this time, is at the bottom, beating out ex-Controller Bird by about 1,800.

The earliest returns at the city clerk's office gave a good idea of how the fight was to end. Controller Robson was in the lead. Controllers Jutten and Morris ran close for a while for second, with Controller Cooper ahead of ex-Controller Bird. This kept up during the whole evening, the only doubt being whether Controller Morris or Controller Jutten would be next to the first man. This was not settled until nearly all the returns were in.

ROBSON ALL ALONE.

It was from Wards 2, 3, 7 and 8 that Controller Robson got his support. In One he was given a majority in every division except No. 30, which gave it to ex-Controller Bird. In Two he got more than half of the divisions; in Three he was given seven out of ten; Four went for Controller Jutten, and Five for the

defeated candidate. Six distributed its division majorities among Bird, Jutten and Robson in the order named, seven was practically all for Controller Robson, as far as divisions go. In Eight he tied with Controller Jutten for the greater part of the people's support.

In fact, out of 156 divisions into which the city was laid out to facilitate voting, Controller Robson was given a majority of more than half of them; in 83 to be exact, coming tie in seven others with one or another of the other four men running.

DIVISION MAJORITIES.

Taking into view the majorities in divisions, a fair estimate of how all the controllers stand can be taken from the eight different wards. Controller Robson's lead in One, Two, Three, Seven and Eight is evident. The next man, Controller Jutten, figures well in Four, Six and Eight. Controller Morris gets a majority in one or more divisions in Two, Three, Four and Five. The fourth man, Controller Cooper, did not fare as well, although getting an average vote throughout the city.

As far as ward majorities go, Controller Robson carried One, Two, Three, Seven and Eight. Controller Jutten came next with Four and Six. Ex-Controller Bird got the support of Five.

THE REASON GIVEN.

Various reasons are given at the city quarters for the change in position of the controllers. The one given most frequently is, in the words of one of the members, as follows: "Any man who endeavored alone to break up the 1915 Board of Control was bound to start at disadvantage, as some were sure to use the argument against him of making an election necessary, despite what merit there is such a plea. Some felt, too, that if any one of the old members were in danger it was Controller Robson or Controller Jutten, the general feeling being that the

other two men not only should be returned, but were safe. I think that this resulted in Controller Morris and Cooper not working practically at all. With this feeling of sympathy and the lack of work on the part of Controllers Cooper and Morris and the hard plugging of the other two, I think the standing is logical and easily explained."

DEFEATED MAN'S RECORD.

Retray was the fourth effort of the defeated man, ex-Controller Bird, to reach that clasp to which all aldermen hope to graduate some time or other. After representing Ward Two in the City Council, he ran for the Board of Control first in 1912 and came fourth, sitting during that year with Mayor Allan and Controllers Cooper, Morris and Gardner. In 1914 he tried once more and came sixth. Last year he again ran and came out two short for the second time, being behind ex-Ald. C. W. Heming. Last January when the leading man, ex-Controller Morris got 5,651 votes, ex-Controller Bird received 4,004. This time, when Controller Robson, as head of the successful candidates, was given 5,242, the ex-controller got 3,350.

A SMALL VOTE.

As was commonly predicted the vote was smaller than usual. There are about 22,000 names on the lists, and it is figured that less than a fourth of these took advantage of the opportunity to express their feeling in the controller election. As far as can be judged by the officials of the City Clerk's department, about 7,500 or 7,600 voted the polls. Controller Robson was given 5,242 votes. Allowing the large number of 1,300 or more as those who did not support that member of the old board, the municipal sions take their total by adding the two. A year ago, when there was a mayoralty fight and three by-laws to vote on, as well as eleven candidates for the Board of Control the voters

OLD ALDERMEN DEFEATED IN FIVE AND SIX

Peter Nicol and Dr. Hopkins Fail to Return to City Council.

THREE NEW MEN

G. V. Langs, F. B. Wright and H. J. Halford Enter the Civic Arena.

In the aldermanic contests, two of the 1915 councilors were left at home. They are Peter Nicol in five and Dr. W. B. Hopkins in six. In their places were elected Frank B. Wright and H. J. Halford. The latter was more of a surprise than the other, in view of the fact that Ald. Halford had tried various times before to reach the council without success, and that this time he ran out of his own accord. No. 2. Last year he opposed Ald. McQuستن and Wright, securing less than half as many votes of the lower of the two returned men. This is another case where the labor interests won out. Ald. Halford securing eight votes more than Dr. Hopkins.

In three the fight was keen. Ald. R. M. Roy, chairman of the Board of Works, was returned. He is accompanied by C. V. Langs, who defeated Dr. F. Stephens and Thomas O'Neil, the latter a labor man. Most of Mr. Stephens' friends figured on his election to first place. The candidates in three finished as follows: Roy, 507; Langs, 213; Stephens, 67, and O'Neil, 65.

The results of the fight for aldermanic positions follow:

WARD ONE.

J. W. Tyrrell and Chas. Peabody, re-elected by acclamation.

Hockey Results

Ottawa, Jan. 2.—Canadians springing the first big surprise of the season in the N. H. A. Saturday night, when they defeated the champion Ottawas by a score of 4 to 2. Henry Lalonde tallied the first goal for Canadians in 48 seconds, and Piro followed with the second in one minute and thirty seconds. Nichols scored for Ottawa, on a pass from Darragh, and Canadians led at the end of the first period by 3 to 1. In the second Darragh tied it up after a great rush, but in the third period the Canadians were too strong for the halfbacks. In the third the Canadians skated the Ottawas to a standstill. Six thousand people saw the match, hundreds being turned away.
